

The IRSSD Scientific Meeting 2026 • Novi Sad, Serbia • 18-20<sup>th</sup> June 2026

# Sponsorship Prospectus

# Welcome

Dear colleagues, friends, and distinguished guests,

It is my great honor and pleasure to welcome you to the upcoming IRSSD Scientific Meeting, which will take place in Novi Sad, Serbia, on June 18–20, 2026.

This year's event will be held in parallel with SCOSYM (Scientific Conference on Scoliosis and Interdisciplinary Management), bringing together two significant gatherings in one unique occasion. The joint organisation reflects our shared commitment to advancing the non-operative care of spinal deformities through interdisciplinary collaboration and high-level scientific exchange.

As the host and founder of the SCOSYM, and a proud member of the IRSSD community, I am thrilled to create a platform where innovative ideas, clinical experience, and research excellence come together.

Novi Sad, a city of culture, history, and hospitality, will be the perfect setting for these inspiring days of learning and networking. On behalf of the organising committee, I warmly welcome each of you and wish you a fruitful, enriching, and memorable stay. We look forward to seeing you in Novi Sad!

With kind regards,

Nikola Jevtić, PT MSc PhD cc  
Chair of the Local Organising Committee  
IRSSD & SCOSYM 2026 – Novi Sad

# IRSSD History

The International Research Society of Spinal Deformities (IRSSD) was established in 1994 to advance the study and research into Spinal Deformities for the public benefit. The object of the Society is to provide a forum for the presentation and encouragement of research relating to spinal deformity and to disseminate the results of such research.

The Society holds an international meeting every two years at which Members and others with a research or clinical interest in problems affecting the vertebral column (spine) present for discussion scientific papers relating to the Societies objectives, including structure of the spine, etiology or pathogenesis of deformities and the methods of recording and investigating such problems as well as advancing evidence based medical practice in the field. The Society has the aim of achieving excellence in such research and to support and encourage scientific investigations of spinal deformities.

From the first one until now:

# Presidents and Meetings

YEAR	LOCATION	PRESIDENT
1994	Pescara, Italy	Dr. Morey Moreland (USA)

# Who are the participants of the IRSSD Scientific Meeting 2026?

By joining the IRSSD 2026 Scientific Meeting, you will have the opportunity to connect with:

- Scoliosis Specialists
- Orthopedic Surgeons
- Physiatrists
- Researchers
- Physical therapists
- Orthotists

The IRSSD 2026 Scientific Meeting is expected to attract approximately 300 participants from the USA, Canada, Hong Kong, China, Malaysia, the Philippines, Singapore, the UK, the EU, and the Balkan region.

# Congress Center Master of Novi Sad Fair

The venue of IRSSD 2026 is Congress Center Master of Novi Sad Fair, located 2 km from the Novi Sad city center.

The Novi Sad Fair complex, including the Congress Center Master, has hosted important national, international, and global events.

The Congress Center Master provides the infrastructure for organizing various events such as congresses, conferences, corporate gatherings, welcome receptions and product promotions.

The total area of the Novi Sad Fair is 226,000 m<sup>2</sup>, of which the pavilion space covers 68,000 m<sup>2</sup>.

The Congress Center of the Novi Sad Fair has a total area of 2,230 m<sup>2</sup>. With six smaller halls and one large hall, it allows for the simultaneous organization of two events for 1,000 and 350 participants.

Address: Hajduk Veljkova 11, Novi Sad
